

BEST PRACTICES

SESSION 2020-21

1. Promoting Eco-friendly and sustainable environment.

We inculcate sensitivity and responsibility towards environment, in our students.

The Practice: To make the campus eco-friendly, the college maintains ornamental garden, plant saplings, conserves water through water harvesting and has installed a solar light at the gate. In our garden other than flowers and trees, we have a section which is specially devoted to medicinal plants. In it, we have Tulsi, Neem, Chirota, Alovera, Giloy, Lemon Grass, Bryo-Phyllum Leaves, Curry Leaves, Parijat, Hibiscus, Ginger, Turmeric, Garlic, Mint, Dill etc.

2. Application of Outcome Based Education Methods.

In the College Website Course Outcome is uploaded. This enables the students to decide what course they should opt for.

The Practice: Students' active participation is ensured in the classroom. Peer learning is encouraged. Literary activities such as debates, essay compositions, quizzes and elocution contests are conducted to make the students well informed.
